

Granulator/Refiner H.D. or Regular

Model 954 H.D.

ADVANTAGES

- Safe
- Easy to operate, Reliable
- Need little maintenance

Granulator/Refiner H.D. or Regular :

Rotor: Heavy duty shaft. Machined, robust and very efficient rotor.

The knives are inclined position. Each wheel has three (3) rotary knives, made of high impact steel and wear resistant.

Input and output water : Rotary coupling (Qty : 2)

Hood: Equip with : - 1 electromechanical actuator for ease of operation when opening and closing hood.
- Two abrasion resistant interior plate, easy to replace.

Exit: Three (3) different bases of exit available : aspirator, conveyor, drawer

Rotary and anvil knives: Made with high impact steel

One abrasion resistant steel screen with a choice of hole size

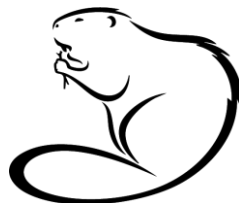

Drive: 2 inertia wheels (one of this wheel is machined for a pulley 5V)

Safety limit switch prevent operation when servicing

Application : Compost, rubber, aluminium, copper, oil filter, PVC, plastic, polycarbonate, wood fibres
